SUMMARY

Full-Stack Software Engineer with strong foundations in Data Structures, Algorithms, and System Design. Experienced in building scalable web applications, RESTful APIs, and cloud-ready systems using Java, Python, React.js, and SQL. Delivered production solutions serving 5K+ daily requests with high reliability and performance optimization. Passionate about microservices architecture, clean code, and solving real-world problems at scale.

SKILLS

Languages: Java, Python, JavaScript, SQL, C, C++

Frontend: React.js, HTML5, CSS3

Databases: MySQL, MongoDB

Cloud: AWS (Basics), Deployment Fundamentals

Tools & DevOps: Git, GitHub, GitHub Actions, CI/CD, VS Code, Tableau, Excel

Testing: Unit Testing, API Testing

Concepts: Data Structures, Algorithms, OOP, DBMS, System Design, Authentication (JWT/OAuth), Machine Learning

EXPERIENCE

Technical Intern — PlanetSpark

Apr 2025 – Jul 2025

- Engineered scalable full-stack features using React.js and RESTful Java/Python APIs
- Designed optimized SQL queries and backend services reducing API latency by **40%**
- Built reusable components and automated workflows improving development speed by **25%**
- Collaborated in Agile teams to deliver production releases with high reliability and zero critical defects

PROJECTS

IPC Predictor (Machine Learning, Python, NLP)

GitHub

- Built ML pipeline predicting Indian Penal Code sections with **92% accuracy**
- Reduced legal research time by **65%** using NLP (NLTK) and Scikit-learn
- Designed preprocessing, TF-IDF feature extraction, and model evaluation pipelines

React Music Streaming App (React.js, Spotify API)

GitHub

- Built real-time playlist management system handling **5K+ daily API requests**
- Implemented caching and performance optimizations reducing load time by **35%**
- Integrated third-party APIs with secure authentication and rate-limit handling

Weather Forecast App (JavaScript, REST APIs)

GitHub

- Developed geo-based weather dashboard using OpenWeather API
- Achieved **99% uptime** with automated polling, caching, and error handling

EDUCATION

Master of Computer Applications (MCA) — Remote/Distance Mode

Expected 2028

IGNOU, New Delhi

Relevant Coursework: Machine Learning, DBMS, Web Technologies, Software Engineering, System Design

B.Tech in Computer Science & Engineering

2024

Lovely Professional University

CGPA: 7.2/10

CERTIFICATIONS

Machine Learning — Coursera — Data Structures & Algorithms — GeeksforGeeks — Big Data — Coursera — R Programming — Coursera
